DSV Solutions Unirack Installation

Project Overview

Our amazing Unirack product has rolled out all the stops again to create a versatile solution for a major sportswear brands distribution centre in the UK. Spilt over three floors the combination of shelving for shoe boxes and sloping bins for clothing has helped this brand get "Brexit Ready" with fast end user and retail distribution in the UK. It's hard to show the scale of this project but to give you an idea the "flat packed" shelving was delivered to site over a 4 week period on 14 articulated lorries bringing in this world famous product to site. Then eight of aci's elite fitters spent the next 8 weeks installing it all.
