Mezzanine Floor & Office Fit-Out

Dimension Development are a specialist in brand awareness in the retail environments and are a growing business with talented and creative staff.

Having worked with aci in 2016, they consulted us to start work on creating additional office space within their beautiful Victorian building.

The solution was to design and install a mezzanine floor to enable offices to be created above their factory but without compromising the production area.

aci were able to create 5 offices, a kitchen area and 2 meeting spaces.

The project was completed in 2 phases over a 3-month timeline.

Customer Comment

"ACI have been very easy to work with, our challenge was to keep our operation operating through such dramatic construction works.

Our scheme was completed at every stage on time and on budget, which was incredible considering the complexes a Victorian factory can reveal."
