

A collage of three photographs showing the interior of a retail space. The top-left photo shows a white wall with a large landscape mural and a ladder. The top-right photo shows a staircase with orange steps and black railings, with motorcycles parked on a mezzanine level in the background. The bottom photo shows a row of orange and white KTM motorcycles on display, with a computer monitor in the foreground.

Kestrel Honda / KTM Full Retail Fit Out

Full Retail Fit Out Project

Following the success of the KTM / Honda Brand, Kestrel contacted us with plans for a brand-new showroom for their expansion in Coventry.

aci were engaged to carry out the entire fit out works including the installation of the new mezzanine floor. On the Honda side of the showroom we had to create a custom bulkhead to create a large Honda sign, this had to be to exact measurements and angles provided by Honda corporate guidelines

With other large projects running at the same time as this, we managed to complete this well within the timescales, budget and of course our usual high spec finish!

Project Scope

Full Design and Consultation to Comply with Building Control
Storage Mezzanine Floor with Oil Tank Re-enforcement
Fire Rated Jumbo walls up to 9 metres High
Partitions for Offices, Kitchen and WC's
