## Project Information

Having completed the redesign and refurbishment in 2018 of both the main reception areas at Chaffron Way and Bletchley campuses, the college appointed ACI to completely refurbish one of the older wings of the Chaffron Way site, to provide modern and bright classrooms and office space.

The project had to be implemented and completed during a tight window of opportunity in August, with completion and handover on time being a critical requirement. ACI achieved this, and the end result is a fantastic modern wing of classrooms and office space, which the college and its students and staff are all proud of.

## Customer Comment

"We have worked with ACI on previous projects, and they have always been competitive with their quotations and have always completed projects on time, which is critical for us. As a supplier they also excel at suggesting innovative products and solutions, which gives us a lot of confidence that the finished rooms will always be very modern and up to date, which is vital for a modern and forward thinking college."

The large refurbishment programme this summer was once again expertly project managed by ACI from start to completion, and we are delighted with the newly refurbished classrooms and office spaces."

Nathan Indge  
Head of Estates & Infrastructure - Milton Keynes College
