Project Overview

Having outgrown their current office space, TopCashback identified a new, much larger site that would help them expand their successful business further.

After an initial meeting with ACI, we identified the required criteria, including a very large canteen / breakout / games area. ACI started work and created a space plan to create the right number of desk locations, managers offices, meeting rooms, toilets and breakout space.

The design was made slightly more challenging due to a quirky shaped building, but we were up to the task!

The conversion of the 9000 square foot of office space took 10 weeks to complete, at a cost of £100,000.
