Nottingham - Meeting Room Partitions**

Meeting Room Partitions Overview

Axis instructed aci™ to create a small and secure meeting room at their Nottingham premises. Frameless glass partitions were selected for the clean lines and contemporary feel. A custom manifestation design was used on the partitions to show the company's branding and further enhance the look of the meeting room.

aci™ provided a professional and pro-active approach to AXIS throughout. The team quickly understood our needs and delivered a solution to meet our requirements, with good drawings and visualisations being provided. The completed office was delivered to a high quality, on time and within budget.
