Office Fit Out Project Overview

Changan UK approached aci™ to plan their expansion into an additional floor at No1 Nottingham Science Park. The brief was to create a densely populated open plan work space and additional areas including, meeting rooms, kitchen and laboratory.

Completed over a 4 week installation with a 2 week lead in the project timescale, delivery and budget met Changan's expectations in full.

The installation included everything from the AV set up and flat screens and projector installations down to the plumbing including an on demand, instant boiling water "zip" tap.
