Turnkey Project Overview

Chinook Sciences engaged aci™ to handle the complete fit out of their prestigious offices within the Nottingham Science Park complex. The brief was to fit out the 15,000ft² of premium office accommodation to a high specification while working in parallel with the buildings eco credentials.

The vast accommodation covers open plan areas, R&D facility, managers offices, visitors offices, meeting rooms, presentation cell, kitchens, bathrooms, board room and Presidents and Directors suites.

With the design process taking just 4 weeks the pressure was on to hand over the facility for meetings to be held in November. These dates were achieved with the construction phase of the project being compressed to just 7 weeks on site.

Landlord Comment

We were quickly impressed by aci.

The quality of information we received from them to manage our approvals processes, the courtesy they showed our on-site team and existing tenants during the fit-out period, and of course the end result – an office suite in keeping with the award-winning, design-led nature of the property.

John Long, Development Director, Blueprint
