Office Refurbishment Project Overview

Videojet design, manufacture and support high-end direct printing machines primarily used for food packaging.

Their Nottingham office was starting to look dated and was not an inspiring place to work or presented the right image for their customers to visit. Videojet also found that the work environment had impacted on their recruitment process, something had to be done.

The location for the business was right so this combined with the costs associated with relocation made re-design and refurbishment of the work space the best option for them.

Videojet instructed aci to re-design and implement their vision for the space that you see here.

Customer Comment

Many Thanks! And thanks for the new furniture yesterday, nice job by the guys.

In general, many thanks for a really well executed project, and I'm a fan of your integrity. Please extend my thanks to all your team – they were all first class.

If you want to use the project and/or get a reference from me, please let me know, I'd be happy to help.

Steve Buckby, Videojet Nottingham
