

Rhodes Wealth Management Full Building Refurbishment & Fit-Out

RHODES
WEALTH MANAGEMENT

Project Overview

Rhodes Wealth Management had outgrown their previous premises on Pride Park in Derby and had been looking for a new office building for over 2 years. They ideally wanted something different from the 'norm' and eventually found an historical ex-farm building in the beautiful village of Brailsford.

As the building had been unoccupied for several years, it required a comprehensive refurbishment to ensure the building was suitable for office use.

ACI were able to create an amazing suite of meeting rooms on the ground floor with a large break out space and shower room, four offices on the first floor with feature glass partitioning and infills, working around the high ceilings and timber beams. The project was completed in 9 weeks.

Customer Comment

'The place looks fantastic. Thank you and well done to the team. We are absolutely thrilled with the end result.'

Please thank all of your team! Absolutely every one of them has been fantastic, really helpful, approachable and really seemed to care about the results we were aiming for.'

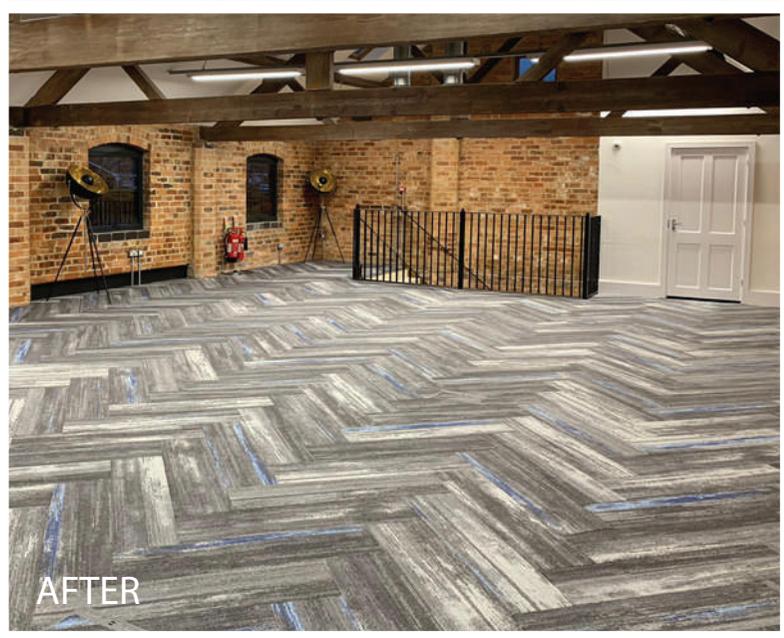

Tristan Gilbody - Operations Manager, Rhodes Wealth Management
