AFTER

BEFORE

Complete Office Fit-Out Project

Comfort Lettings are Nottingham's market leaders in Residential Lettings & Property Management Services, with a clear focus on customer experience.

Having grown year by year, they needed a larger building for their staff, but they also wanted a more prominent roadside position to give their brand even more exposure.

ACI were engaged for free initial consultation and design to see if the space would work for Comfort Lettings. We were able to deliver multiple management offices and meeting rooms, a feature reception area, a large break out space, toilets and shower room. The project was completed in 6 weeks.

- Large Break Out / Kitchen Space
- Shower Room and Toilet Works
- Carpet and Parquet Vinyl Flooring
- Office Furniture
- Full Electrical Installation
- Full CAT 6 Data Installation
- Building Regulations Compliant

Customer Comment

"A great team of people who understand the needs of the client probably before the client does! They are always willing to work with ideas and offer their (often better) views to make a project work.

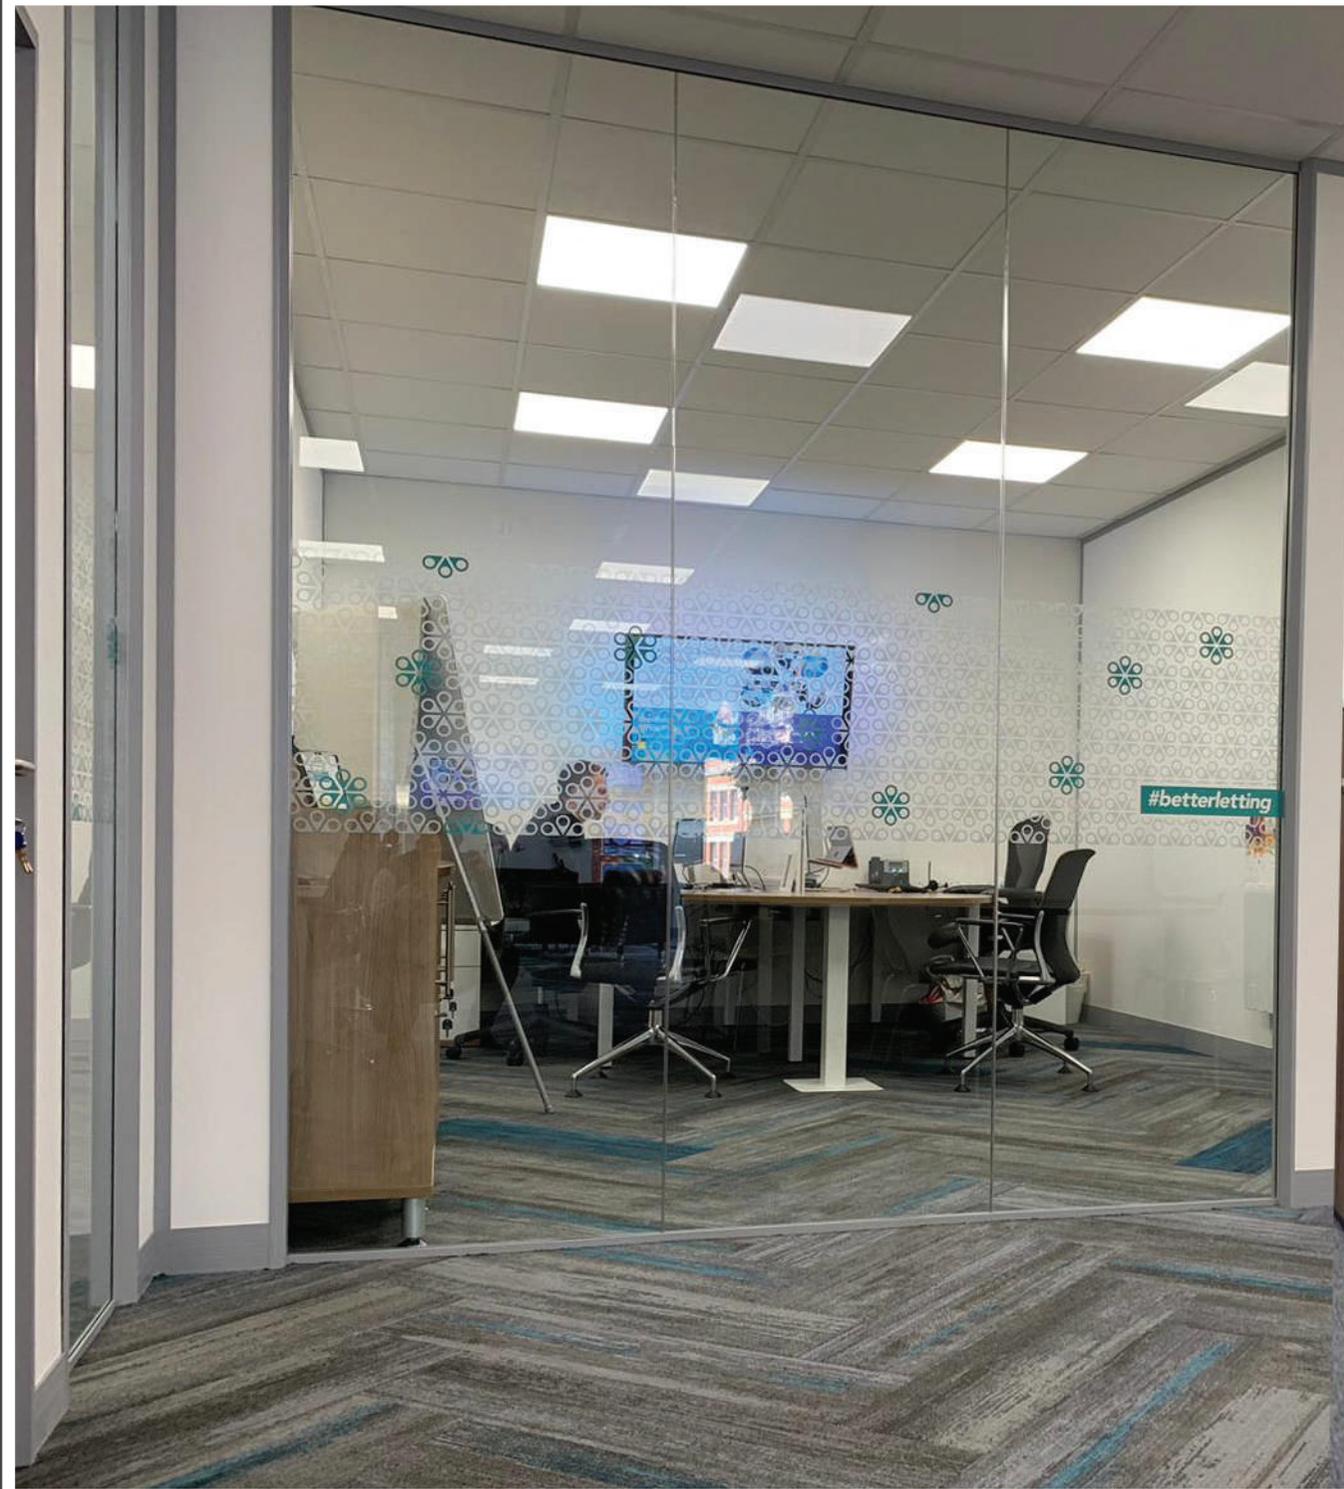

They are completely solution focussed so even if something unexpected happens, like it can do with commercial refits, they will spend their time tirelessly working on the solution rather than wasting time on anything else.

Top class delivery and execution from top to bottom and a great company to work with."

Tom Kite, Partner, Comfort Lettings
